## THE BATTLE OF CUMBERLAND

With bombs bursting in air and rockets red glare NARHAMS and LaSalle met and fought a two day one night battle. NARHAMS carried the day taking every place in every event. Drag Race, Spot Landing, Pee Wee Payload, Hawk BG, and Scale were launched but Class II Altitude was cancelled for lack of time. LaSalle revenged last years war games with a demonstration of basement bombing.

NARHAMS took 723 points and LaSalle 60 making a total of 783. This contest was a regional even though NOVA and Whitman were not represented.

EDITORIAL

# THE SEQUEL TO THE BATTLE OF CUMBERLAND

I need not remind anyone that fireworks are illegal in Maryland, or that model rockets are, under the law, fireworks.

The NAR is having a rough time trying to change these fireworks codes. As members of the NAR we should support the NAR's position that model rockets are not fireworks. As I see it, there should not be any fireworks in the of any NAR member or participant at any of our section meetings, launches or functions.

If we are to legally divorce model rocketry from fireworks, they should not be seen together. It would take but one publicized incident of fireworks at a launching to destroy our chances of having legal model rocketry in Maryland. . . .

## - TIDBITS -

Jim Kukowski has moved to a new house.

The company in N.J. which sells NAR competition points does not exist reports Ed Pearson, who is demanding that ZOG 43 pay him back for the stamps he used -- claiming false advertising.

School is out and so is ZOG 43! It seems that the ditto machine has been locked in, and the editors locked out of school.
